

NCS Colour Scan

NCS Colour Scan is a mobile electronic colour card. It is fast, handy, and easy-to-use. Capture colour inspiration at the moment you find it, anywhere! It contains all the 1 950 NCS Original colours. Quickly and easily you can find the nearest NCS colour you are looking for by just pressing the large button once and retrieve a close NCS notation on the display. The NCS Colour Scan is a perfect tool for architects, designers, paint shops, painting contractors who need to identify the nearest NCS colour in a second. NCS Colour Scan is a perfect complement to your accurate NCS Original Colour Card.

Specifications:

Size:	172 x 50 x 28 mm
Weight:	163 gram (excl. batteries)
Batteries:	4 x AAA
Calibration:	Calibrate before the first usage. Re-calibrations is recommended if device seems to show faulty readings and from time to time.
Measurement time:	2 seconds
Memory:	20 readings. Cannot be connected to any other device
Contents:	All 1 950 NCS Original colours in Edition 2
Options:	Storage of own database up to ~9 000 colours and change of design at larger quantities/additional costs
Controls:	4 buttons
Display:	2 line, 16 characters LCD
Usage:	Standard compliant for indoors use. May be used outdoors but try to keep the device warm. If used too cold or too hot, readings may become inaccurate. Should not be exposed to direct sun, high humidity or extreme cold.
Aperture size:	1 cm
Min sample size:	12 mm
Measuring results:	The best measuring results can always be obtained on clean, dry and smooth surfaces. It is not quite that easy to reach exact values on structured surfaces such as rendering or textiles. The same applies for multicoloured materials like carpets, metallic, pearl effects, high gloss and colours with metamerism pigmentation. In such cases, we recommend several measurements and comparison with an original NCS sample.
Guarantee:	90 days. Not eligible for repair.
Terms:	Any and all sales of products by Scandinavian Colour Institute AB (SCI) are subject to Swedish substantive law and subject to that transfer of title does not occur until the purchase price is paid in full (retention of title provision), that SCI always shall be entitled to replace a product as full remedy of such product being in any way faulty, that the liability of SCI at all times and for any reason (including but not limited to any indirect or consequential losses) shall be limited to an amount equivalent to the purchase price
